# Call for Thematic Program Proposals for 2023 Tohoku Forum for Creativity

Submission  
Deadline

**Aug. 31, 2021**

The Tohoku Forum for Creativity (TFC) is the first international visitor research institute in Japan. Our aim is to identify important problems across all fields of research including: social sciences, humanities, and life sciences, and to develop innovative ideas and deeper theoretical foundations through intensive, focused discussions.

The TFC is currently inviting proposals for thematic programs in the 2023 academic year (April, 2023 - March, 2024).

- A thematic program consists of two core components: the long-term stay of invited researchers, and the hosting of multiple events such as conferences, workshops, and tutorial sessions.
- Thematic programs aim to solve important problems, facilitate interdisciplinary research, and inspire young researchers.

## What we offer

- Financial support : Up to 10,000,000 JPY [Type A] and Up to 5,000,000 JPY [Type B] for each program, for visitors' travel expenses, and other expenditures.
- Support from TFC staff : We help organizers plan their programs and give comprehensive administrative and logistic support to each program.
- Ideal location : The House of Creativity has a lecture theater, informal discussion areas, and office space for invited researchers, which together make it the perfect location for workshops and symposia.

Submission Guidelines
