第39回脳神経科学コアセンターセミナーのお知らせ

日時 2015年9月30日(水) 10:00-11:30

会場 東北大学 医学部1号館 第2講義室

演題 "Essential Skills for Publishing High Impact Research Papers"

演者 Charles Yokoyama 博士
理研BSI 前Neuronエディター

Publishing is a fundamental part of research and scientific progress. How to plan research, write manuscripts, and publish high impact papers is often missing from scientific education, even though it is crucial issue in science policy and career development. This seminar will present essential points of research strategy and communication for successful high impact publication. Topics will include defining scientific impact, writing successful manuscripts for high profile journals, navigating peer review, and research project planning.
