

TOHOKU FORUM
for CREATIVITY

Sponsored by AOBA
Foundation for the
Promotion of
Engineering

2018

8.27-28

Mon.

Tue.

TOHOKU
UNIVERSITY

Tohoku University's Chemistry Summer School

Keynote Lectures

27th Mon.

9:10-10:00

Prof. Noah Burns

(Stanford Univ. USA)

Selective Halogenation and
the Study of Noncanonical
Lipids

17:30-18:20

Prof. Hiroshi Kumigashira

(Tohoku Univ. Japan)

Design of novel
functionalities in oxide
nanostructures

28th Tue.

9:00-9:50

Prof. David Sarlah

(Illinois College of LAS. USA)

Dearomative Functionalization
Strategies and Synthesis of
Anticancer Natural Products

13:00-13:50

Prof. Xiaoguang Lei

(Peking Univ. China)

Natural Product Synthesis as a
Driving Force to Address the
Antibiotic Resistance Crisis

16:20-17:10

Prof. Johan Hofkens

(KULeuven. Belgium)

FLUOROCODE, a super-
resolution optical map of DNA

Meeting Place

Oral Session

Science Lecture Hall **(H-32)**

Poster Session

Science Complex A 2F **(H-02)**
